PRINCIPLES

- We provide Educators and staff with training and development focusing on emergency and evacuation policy and procedures, including conducting and documenting evacuation rehearsals in accordance with regulatory requirements.
- We prioritise good governance and quality management, and support all staff with policies, procedures, and guidelines clearly outlining their roles and responsibilities to minimise the risk of harm and hazard to children during the management of emergencies.
- We support our services to develop and customise site-specific risk assessments ([Reg 97\(2\)](#))
- While developing and implementing safe and effective emergency and evacuation plans ([Reg 97\(4\)](#)) we acknowledge each service's unique circumstances to ensure a safe and effective environment for children. We consider the risk to children evacuating via stairs at the same time as others, if significant heights are involved, and if non-ambulant children are present.
- We partner with families of children with diagnosed medical conditions to develop a Risk Minimisation Plan for their child prior to commencing at the service or as soon as we are advised that a child has a diagnosed medical condition to ensure all children's medical needs are considered during emergency situations.
- We believe the safety, health and wellbeing of children is a paramount consideration. Therefore we conduct regular rehearsals and reviews of our emergency and evacuation procedures.
- We ensure our educational program promotes opportunities for children to learn and develop. Key skills such as gross motor, coordination and language can be practiced during evacuation rehearsals.
- We regularly communicate with families about emergency and evacuation procedures and drills.
- We ensure we meet all legislative requirements and obligations under the Education and Care Services National Law and National Regulation in regards to emergency and evacuation procedures.
- We embrace the learnings from Catholic Social Teachings and support families in kind and respectful ways when resolving understandings and compliance with our policies and procedures.
